

The national network of
computer specialists available
on contract to your business

LOCAL SERVICE - GLOBAL STRENGTH

Who are Computer Troubleshooters?

We are the world's number one franchise network for computer service.

We help small business owners and home office users with a unique and distinct style of on-site service, support and training.

Our approach is very different from most other computer service companies. Our engineers provide a high level of friendly, personalised service. They are located close to their customers so we can respond quickly and cost effectively to help meet their needs.

The first franchise opened in 1997 and there are now over 450 operating in 22 countries. We have 22 locations in Canada.

How to contact us

Please call our National Account Director Chris Aconley @ 604-739-3260 to discuss this further.

How can we help your business?

Our engineers are highly skilled and can help with a number of technical issues including:

- Repairs
- Upgrades
- Diagnostics
- Troubleshooting
- Installation
- Networking
- Cabling
- Configuring software
- Wireless set-up
- Security & data backup

All these services are available to your business nationally but with the advantage of a local service.

So, why choose us?

Your customers need a reliable, friendly and efficient service – that's why you need Computer Troubleshooters.

Our engineers are well aware that computers are the lifeblood of many businesses and that without those systems running efficiently businesses can suffer significant damage. Our aim at all times is to reduce the amount of downtime for each business – something your customers will find invaluable.

We are independent of any hardware or software supplier allowing us to provide impartial advice and guidance.

Add to this the security and peace of mind that we are backed up by the total franchise team of technical experts, with their wide range of skills and abilities, meaning we can become a valuable asset to your business.

We are negotiable on rates without compromising on service. As a growing network we feel we would be capable of meeting your contracting needs and would be happy to discuss this.
